Ben omar kouba, ALG

Summary

My name is Saiche Nouh, and I am a self-taught developer with a Higher Technician degree in database management systems. While I have formal education in database management, a significant portion of my knowledge and expertise in developing apps and software is self-acquired. Developing applications has been a passion of mine since I was a young man, and I have been able to learn independently due to my deep interest in the field.

I embarked on my journey into computer science and programming languages at the age of 24. Python was my first programming language, and I found it immensely fascinating because it provided the versatility to bring any idea to life, whether it be developing desktop applications, mobile apps, or simply creating scripts to materialize my imaginative concepts.

I am enthusiastic about joining a company where I can contribute my knowledge and skills, collaborating with a creative team to achieve our goals. Simultaneously, I am eager to further enhance my abilities and gain valuable experience along the way.

Experience

Full Stack Developer

Hostaplast • Seballa, ALG

11/2022 - Present

I worked as the developer for the company, where I handled various projects including full stack web apps and mobile apps. Additionally, I served as the HelpDesk personnel responsible for managing the company's hardware and software requirements.

Skills

React, React Native, FireBase, NextJS, Figma, TypeScript, HTML5, CSS3, Sass (Syntactically Awesome Style Sheets), Docker, Vim, NoSQL, SQL, Prisma ORM, Express JS, Node JS, JavaScript

Education

Higher Technician in Database Management

Omar mezzari institute • pins maritimes, ALG

06/2020

One of my significant academic achievements is obtaining my Higher Technician degree with a specialization in Database Management. During my final thesis, I developed a desktop application in Java that automated the process of generating project documentation. I am grateful to IT Comp, the company that provided the theme for my final project, for their support and guidance throughout the process.
